UPGRADE FIRMWARE VERSION-FOR MacOS

Step1 - Check the current firmware version

Press and hold the printer's feed button until the indicator light on the

printer flashes once, then release it to print a self-test page.

Step2 - **Determine whether to upgrade**

If the **firmware version is < 8** and you want to use MAC Bluetooth printing, please upgrade the firmware first.

Step3 - Upgrade the firmware version

(1) Download and install the utility for mac OS
